Jumby House was made for traditionalists. Nothing trendy, nothing designer, just old-fashioned, colonial style luxury. Perfectly positioned on a hillside to catch the cooling tradewinds, it pulls off the neat trick of feeling exclusive yet laid-back. It has an exceptional view overlooking the little church and turquoise sea of Valley Church Bay. Jumby House offers very comfortable, large modern suites with balconies and 3/4 bathrooms with powerful German fittings. All rooms have modern powerful ceiling fans. Jumby House was recently constructed to a very high standard with everything required for a comfortable stay in a beautifully quiet environment. It is within ten minutes walking distance to the Caribbean Sea. All the facilities of Jolly Harbour are close by as are all the best beaches on this side of the island.
